As we pray and listen to God regarding the parking garage, please pray with us:

- Pray for discernment for church leadership- to know what God is saying to us in this unanticipated delay.
- Pray that any weapon formed against us will fail, and that God will turn the enemy's attacks to our advantage.

Expanded Influence: Campus Redesign

Dr. John Stanko talks with Pastor Rock about the latest news regarding Campus Redesign.

We've learned that the parking garage is now on indefinite hold- what is the cause of that?

Changes in leadership have occurred throughout the Highmark, AHN and AGH levels of the health system. This set off a change in their strategy, and solving their parking issues moved down their list of priorities. The garage hasn't been nixed, but this is what's behind the delay.

What does this mean for ACAC?

It means that we pray. We don't see it as a setback, we see it as the set up for what God has for us. You can be in the will of God and anticipate how something's going to unfold only to discover it unfolds a little differently in the shape or in the timing of it. We still believe this is all God's doing, but we just need to pray, press on, discern and see what God wants to adjust. I believe there are 3 possibilities for the delay:

1. The garage is the Lord's intent, but the enemy is trying to hinder us.
2. Now isn't the Lord's timing for the garage, but it will happen.
3. The Lord is allowing the delay because He wants us to build other partnerships or see other opportunities.

Please pray with us. See the other side of this insert for prayer points. And visit www.acacvision.com to watch the full conversation between Dr. John and Pastor Rock.
